

Invitation to Innovation Day

Innovation Norway, Royal Norwegian Embassy in Seoul, and DNV-GL would like to invite you to Innovation Day - one day seminar and B2B networking event on September 28th, 2017, at the Millennium Hilton Hotel in Seoul. At the event, you can meet Norwegian companies and organizations, and hear from leading voices, in Offshore Wind Energy, Smart Society and Aquaculture.

Norway and South Korea share a commitment to the United Nation's sustainable development goals, and both see innovation as the key to a brighter future. Innovation Day offers a unique opportunity by bringing together Norwegian and South Korean companies, and fostering future collaborations.

In particular, the B2B networking event will provide your company with a great opportunity to meet Norwegian companies whose knowledge and experience can benefit your current and future projects.

We hope you will take this opportunity to present your company to potential international partners, and look forward to seeing you at Innovation Day 2017.

Yours sincerely
on behalf of Innovation Norway

Elin Sagbraaten
Commercial Counsellor, Royal Norwegian Embassy Seoul
Director Innovation Norway Seoul
