

REAAA Conference Goyang 2025

In October 2025,
The "REAAA Conference Goyang 2025" will be
held in Goyang

The Conference will highlight the 17th REAAA Conference with the
PIARC Annual Meeting and the International Road Traffic Expo
(ROTREX).

The REAAA* is the leading road technology organization in the
Asia-Australasia region, with 23 member countries. Headquartered
in Kuala Lumpur, Malaysia, South Korea has served as the President
Country from 2021 to 2025.

*REAAA(Road Engineering Association of Asia & Australasia)

The REAAA Conference Goyang 2025 will be the first major interna-
tional road event in South Korea since the World Road Congress in
Seoul in 2015. Expected to attract over 5,000 participants from more
than 70 countries, it will provide a platform for road technology
professionals to discuss current issues and share insights on the
future of road infrastructure.

We invite you to join the REAAA Conference Goyang 2025 and engage
with road technology experts from around the globe. Your active
participation will be a valuable contribution to this significant event.

Venue

KINTEX (Exhibition 2)

- From Incheon International Airport
→ Approximately 45min – 60min. by car
- From Gimpo International Airport
→ Approximately 20min – 30min. by car

Accommodation

The Organizing Committee will provide hotel reservation
services for participants from around the world to ensure
their convenience. We will select optimal locations considering
proximity to the venue, amenities, and safety.

Sponsorship

Sponsorship of this conference will greatly assist countries,
companies, organizations, and individuals with an interest in
road technology in promoting their names and affiliations.

REAAA Conference Goyang 2025

Future Roads ; Hyper-connection

October 26-31, 2025

KINTEX (Exhibition 2)

Main Event

Official Event

- Opening Ceremony** - Announce the conference theme and kick off the meeting.
- Welcome Reception** - Facilitate networking among participants.
- Gala Dinner** - Commemorate the event and connect with attendees.
- Closing Ceremony** - Review achievements and highlight key takeaways.

REAAA General Meeting & REAAA Council Meeting

The 17th REAAA General Meeting, along with 124th and 125th Governing Council Meetings, will be held to strengthen international cooperation and share advanced road technologies and policies among Asia-Australasia countries. Concurrently, the YEP meeting will be held to foster young road professionals, and the HORA meeting will be held to bring road agency leaders together.

PIARC Annual Meeting

The governing council, national committee, and technical committee of the PIARC, a leading international organization in the road and transport sector, will come together. These meeting will strengthen the international cooperation in road technology and provide a platform to discuss future road policies and operational strategies.

Exhibition

During the REAAA Conference, the 2025 ROTREX, the largest road and transport exhibition in Korea, will take place. This exhibition offers an opportunities for companies to showcase advanced products to international government officials, organizations, and businesses. Additionally, a BIZ matching program will be organized to help participating companies explore international markets and connect with overseas buyers.

Academic Symposium

- Special Session** - A Special Session will enable active technology exchange among domestic and international road experts, focusing on future roads and hyper-connected technologies.
- Plenary Session** - A Plenary Session will explore new technologies for advancing national road systems, with key speakers facilitating discussion on future road innovations.
- Technical Session** - A Technical Session will facilitate research exchange and technological cooperation in road technology across Asia and Pacific, featuring 250 papers across 12 fields.

Other Events

- Ministerial Session** - Discussions on the future of road technology will be held with ministers and vice ministers from various countries, focusing on identifying future policy agendas and laying the groundwork for the forthcoming era of hyper-connected roads.
- Bilateral Road Conference** - A Bilateral Road Conference will bring together high-level officials and experts from the United States and Indonesia to enhance G2G cooperation.
- Business Forum** - A Business forum will be held to share knowledge in the road sector and strengthen partnerships, featuring participation from government representatives, businesses, academia, and research institutions.

Side Events

- Technical Visit** - Experience Korea's advanced road technologies through programs organized with public and private companies and research institutions.
- Cultural Visit** - Explore Korea's traditional culture and unique destinations with a high-quality cultural program for conference participants.
- Tour Program for Accompanying Person** - Enjoy a comprehensive tour showcasing Korea's history and culture for registered accompanying persons.
